Dear Harold and Sil,

Sorry, I've been out of touch and so busy. Tax time is never too pleasant a period. I've been working seven days a week, on top the hepatitus "C" Remember this is the fatal or rather can be fatal version of the four known hepatitus virus's. But I've only 3 more months of chemotherapy. It's getting more livable or maybe I've just adapted. God, I hope the two of you are coping and are able to be together as much as possible. I will be able to help you on the roof in the not too distant future! I've just got behind weather wise and ~~needed~~ medically. I do look forward to hearing some more anecdotes about the → J.F.K. researcher carousel! Incidentally I am burned out on reading, talking, or fixating on this subject for awhile I really have turned over

(I've been in here since last Thursday.)

some distasteful information in relation to this baffling smoke and mirrors J.F.K. thing. So many people are so full of shit! Mostly on the Texan side. Yet I still spent $700.00 in telephone bills in Dec. January. I can still justify somehow, this obsession with this Quixotic somewhat pointless quest of mine — Your friend, ~~Poor~~ Mass Tom Weaver
